Hooksett Recycling & Transfer Advisory Committee

Meeting Minutes

8-27-2019

Call to order- 6:33 pm

Present- Jim Levesque, Sean McDonald, Ray Bonney, Robert Shroeder, Richard Bairam, John Giotas

Absent- Jim Gorton

Also present- Richard Blake, Crew Chief

Pledge of Allegiance

Reviewed minutes from 6-25-2019 Jim Levesque motioned to accept seconded by John Giotas all in favor.

Old Business: Informed the new 100 yard trailer is in paint should be ready in near future.

New Business: Discussion on recycling outlets there may be a market to dispose of glass and plastic and possibly mixed paper for less than the price of trash. The question was raised as to the amount of time personnel will need to complete the bailing and loading of material to make this system work and will it warrant the process from a cost and feasibility aspect. We are exploring the possibility and practicality of all options.

Discussion on the cones in the driveway at the transfer station. The cones are there due to the fact that many residents where bypassing the scale without stopping and dumping material in incorrect areas. As a result the personnel in the yard had to clean it up and the violator did not pay for the load and in some cases it was material that we do not accept. Now for the minimum inconvenience of stopping at the scale the personnel of the yard can do other chores.

Cardboard on the last load was at $10.00 a ton.

The old vertical bailer was sold on govdeals.com for $450.00. It has not been used in 15 years.

Meeting Adjourned at 7:42 pm.
