Discussion on the new recycling system, and how it is going, it seems to be working, we will make adjustments as we go to make it better. It is growing in use.

Asked about the new 100 yard trailer, and if we had it yet. It has been in service for about a month now.

Asked if we are still short personal, still have a driver/laborer position open at this time with no applicants. Asked is office position was full time yet, this needs to be voted on by warrant article to change to full time.

Clark Karolian, new Council Alternate Rep, was present asked about the condo reimbursement and how it worked and who gets the reimbursement, was told it is calculated by number of units, at 21 pounds per week times the rate we pay for disposal, and is paid to the property management company twice a year after we receive paid invoices from their trash company.

Also due to scheduling meeting was held upstairs in conference room and was not recorded.

Meeting was adjourned at 7:45 pm.
